

Safety Data Sheet Coloured Poly Tinter

1. Identification of the Material and Supplier

Product Name: Poly Tinter Pigment Paste (Black, Blue, Green, Red, Yellow, Orange etc)
Product Code: PT-xxxx range (PT-BLACK344, PT-BLUE211, PT-BTRED636 etc)
Uses: Pigmenting polyester gelcoat and resin
DG Class: Not classed as a dangerous good. No hazardous ingredients.
Hazchem Code: Not applicable
HS Composites Ltd 63 Hunua Road, Papakura, Auckland 2110
www.hscomposites.co.nz sales@hscomposites.co.nz +64 (09) 295 2200
Emergency Phone: National Poisons Centre 0800 764 766

2. Hazard Identification

Not classified as Hazardous according to the Hazardous Substances (Minimum Degrees of Hazard) Notice 2017

3. Composition and Information on Ingredients

No hazardous ingredients

4. First Aid

For advice, contact the National Poisons Centre 0800 764 766 or a doctor.

Eye contact – Hold eyelids apart and flush the eye continuously with running water for 15 minutes. Remove contact lenses after 5 minutes if present, and easy to do. Continue flushing. If irritation persists, seek professional medical attention.

Inhalation - Remove patient to fresh air - move out of dangerous area. If symptoms develop and persist, seek medical attention.

Skin contact – Remove contaminated clothing. Wash skin thoroughly with plenty of soap and water. If skin irritation occurs seek medical attention.

Ingestion – If swallowed do NOT induce vomiting! Rinse mouth thoroughly with water. Drink plenty of water. If the victim is not breathing begin artificial respiration from mouth to nose (rather than mouth to mouth). Seek medical help.

Note to Doctor - Treat symptomatically.

5. Fire Fighting Measures

Do not use full water jet. Use extinguishing measures appropriate to local circumstances.

6. Accidental Release Measures

Ventilate the surrounding area.

Contain the area of spillage and transfer material into containers for disposal. Absorb remainder with sand or perlite and place the saturated absorbent into closed containers and label for disposal.

Prevent contamination of storm-water drains and waterways.

7. Handling and Storage

Avoid contact with skin, eyes and clothing. Launder contaminated clothing before re-use, wash skin with soapy water. Wash hands thoroughly before eating.

Keep containers tightly closed when not in use.

8. Exposure Controls / Personal Protective Equipment

Wear overalls or other work clothing providing arm and leg cover. Use protective latex or nitrile gloves. For eye protection use safety goggles or splash mask.

9. Physical / Chemical Properties

Physical Description & colour:	Viscous liquid of various colours
Odour:	Characteristic
Flammable Liquid Flash Point:	>100°C
Specific Gravity:	1.3 – 1.5
Water Miscibility:	Immiscible

10. Stability and Reactivity

Stability: Generally, this product has good stability. Will not polymerise.

11. Toxicological Information

When used under properly controlled conditions no adverse health effects are to be expected. Not irritating. No hazardous ingredients.

12. Ecological Information

Not classified as dangerous for the environment.

13. Disposal Considerations

Recover or recycle if possible. Ensure that this material does not enter drains, sewers or waterways.

14. Transport Information

Not considered a dangerous good for transport.

15. Regulatory Information

Not HSNO classified. Not a tracked or controlled substance.

16. Other Information

Date Updated: June 2024 Reason: Update
