

Product Information Sheet Wax Solution SW16

Product:	Synthepol Wax Solution SW16
Uses:	As an additive for non-waxed polyester resins, to improve surface cure.
Application:	As above
Typical	Clear colourless liquid.
Properties:	Specific Gravity is 0.85 – 0.95 Flammability is High. Flash Point is 31°C.
Gel Time:	N/A
Storage:	Store in a secure area in closed container away from any heat source, ignition source and out of direct sunlight, store below 25°C.
Directions for Use:	Synthepol wax solution can be added to unwaxed resin or gelcoats to give a non-tack finish, the addition rate can be between 1 – 3%, however trials should be completed prior to final % addition to ensure the correct amount required to achieve a non-tack finish as this will vary from product to product. Allow a gel time of at least 20 minutes to ensure the wax has sufficient time to rise to the surface, thus giving the non-tack finish.

Hazards:

Personal Protection:
